✓Weekly Summary (Short summary about what you did this week)

This week we were able to fix zoom issues with the map. Now we are able to zoom in to any level we want without the map going blank. We also worked with the tilt of the map so that the user will not be able to tilt the map. We were able to pull a list of files from the database to be displayed in the browser.

✓Past week accomplishments (please describe as what was done, by whom, when)

❖ Alex Clark

- o Completed GeoJSON file creation through sending code to server

❖ Alex Peck

- o with Kurry's help stopped the map from tilting when you zoom in

❖ Chandler Heisler

- o Got the list of all the files from the database but have not been able to display them on the browser

❖ Kurry Watson

- o Worked with Alex Peck to disable tilt when zoomed in
- o Added state saving for pins between reloads

✓ **Pending issues (if applicable)**

- ❖ Nothing blocking progress

✓ **Individual contributions**
